

Especies de la lista roja de especies de la fauna venezolana 2015

Las abreviaturas en esta tabla siguen el estándar de la UICN (DD: datos insuficientes, NT: casi amenazado, VU: vulnerable, EN: en peligro, CR: en peligro crítico, RE: extinto regionalmente, EX: extinto). Debe considerar que el estado de conservación de las especies es reevaluado frecuentemente para reflejar los cambios recientes que ocasionan sobre las especies las amenazas y acciones de conservación, por lo cual se recomienda que use última versión publicada. Los datos acá presentados provienen de la cuarta edición del Libro Rojo de la Fauna Venezolana (Rodríguez, García-Rawlin y Rojas Suárez 2015).

Phylum	Clase	Orden	Familia	Nombre Científico	Autoridad Taxonómica	Categoría
